

Dear participant,

We are pleased to invite you to join the Virtual Policy Lab for Youth: Simulating Civic Decision-Making Across Europe, an online event organised by Meridaunia within the AllonBoard project. The public session will take place on **23/06/2026** from **10:30 to 12:30** CEST, on the EU Rural Pact Community Group platform.

During the event, young participants will explore civic participation, rural youth engagement, inclusion, social entrepreneurship and digital democracy. Through an interactive Policy Lab, participants will work in language breakout rooms, discuss real challenges and co-create concrete policy proposals.

By joining this event, you will leave with:

- o a better understanding of EU and local decision-making processes;
- o new perspectives on rural development, civic inclusion and digital democracy;
- o practical recommendations contributing to the AllonBoard Youth Civic Policy Brief.

AllonBoard encourages young people to take an active interest in the decisions that shape their communities. This event will offer a practical space to exchange ideas, build confidence and contribute to a shared European discussion on youth participation and inclusive rural communities.

Registration is mandatory. On the next page you will find the registration link, key practical information and a draft agenda for the public session.

We look forward to welcoming you and sharing this experience together.

Kind regards,
AllonBoard team
